LATE REPORTS OF EARTHQUAKE MORE CHEERFUL

Loss of Life Not So Great as
First Reports Had Indi-
cated.

THOUSANDS WERE KILLED

Two-Thirds of Tokio Admit-
ted to Have Been Destroyed
by Shock or Fire.

(By the Associated Press)

Although latest reports from Ja-
pan lead to the hope that the
death toll is not so large as had
been feared, the destruction
wrought by the earthquake tidal
wave and fire has been tremen-
dous.

A dispatch from Shanghai today
says that information received
there makes it apparent that the
losses, both in life and property
were "much exaggerated."

All sources agree, however, that
two-thirds of Tokio has been laid
waste. A message from the Ameri-
can consul at Shanghai to the state
department quotes a British
steamer at Yokohama as authority
for the statement that that city vir-
tually has been destroyed.

Three United States destroyers
have arrived at Yokohama and taken
aboard 300 Americans.

One report which has not been
confirmed, says that cholera has
broken out in the port.

Tokio still estimates the dead in
the capital at 30,000, but makes no
attempt to estimate the total for
Yokohama and many coast towns
that were in the path of the tidal
wave and many other communities
that were in the earthquake zone.
Foreign residential sections in both
the capital and the port seemed to
have escaped destruction but the
slums in the industrial districts
suffered severely.

All missionaries of the Reformed
church are reported safe.

American Judge Missing.

SHANGHAI, Sept. 7.—Alarm is
still felt for Judge Charles Lob-
bingier of the United States district
court for China, who left Mukden
for Japan August 29. Although it
is not believed that he reached
Yokohama before the earthquake,
his silence worries his friends here.

Judge Lobbingier was bound for
Yokohama after a term of court
at Harbin, Manchuria. He was ac-
companied by his wife, by United
States District Attorney Leonard
Husar, Mrs. Husar and United
States Marshal Thurston Porter.

More Americans Lost

(By the Associated Press)
SAN FRANCISCO, Sept. 7.—
Thomas Abbey, Jr., whose father
was credited with introducing the
telegraph into Japan, is reported
dead in Yokohama where he owned
an importing house, according to a
cablegram received by his brother.
Three of the Abbey children also
are reported to have perished.

British Vice Consul Killed

(By the Associated Press)
SHANGHAI, Sept. 7.—British
Vice Consul Haig was killed in the
earthquake, says a British wireless
message received here. The com-
mander in charge of the naval hos-
pital also was killed but the re-
mainder of his staff and their fami-
lies escaped.

COLLEGE ENROLLMENT TO BEGIN TOMORROW

Enrollment at the College will
begin Saturday morning at 8
o'clock, according to an announce-
ment this morning. Class work will
start the first of the week.

The beginning of the fifteenth
year of the college is expected to
be the best of the entire period.
Although last year smashed all pre-
vious records, correspondence with
prospective students causes the
authorities to believe another re-
cord will be hung up next week.

Several new features will be in
evidence. A commercial department
has been added, and this will per-
mit many students who have not
been given this privilege to get
their commercial training at the
expense of the state. More music
is to be added and many other fea-
tures which will prove attractive to
others than teachers, though they
will prove attractive to teachers as
well.

Boy Scout Notes

Troop No. 7 will go to Scout
Lodge tomorrow night. All Scouts
in No. 7 are urged to go. Meet at
the Willard school house at 5:30
p. m.
CLYDE ALLETAG
Scoutmaster

Fierce Badger is Expected to Meet Ada Bulldogs Soon

Bill House is authority for the
statement that A. H. Kilpatrick has
ordered a wild badger from Wis-
consin and a badger fight will be
staged within a few days. "Kil",
has not put on a fight in several
months, and the fans are anxious
for another encounter.

Several bull dog owners are want-
ing a chance to pit their dogs
against the badger. Just whose dog
will finally win the coveted honor
is not yet known. Betting thus
far is slow, as many insist they
will not put up money until the
animal is on the ground and they
see the dog which is to be placed
against the imported fighter. Exact
date and place for the greatest of
Oklahoma sports will be announced
later.

RED CROSS RUSHES RELIEF CAMPAIGN

Hopes to Have not Less Than
\$5,000,000 on Hand by
Next Monday.

(By the Associated Press)

WASHINGTON, Sept. 7.—Red
Cross chapters throughout the coun-
try were tending every effort to-
day to bring the total contribu-
tions of the American relief fund
for earthquake sufferers in Japan
to the \$5,000,000 mark by Mon-
day. Necessity for quick action was
emphasized by officials at national
headquarters in expressing the hope
that this total, which is the mini-
mum set, would be in hand by
that day in order to permit the im-
mediate placing of further relief
supply orders.

The directors of the local Red
Cross organization in meeting yester-
day decided that the best action to
take in regard to the subscrip-
tion of money for the relief of the
sufferers in the earthquake and fires
in Japan would be to give the peo-
ple ample opportunity to give what
aid they wished.

Feeling that now is an inopportu-
nity time for an intensive drive,
the opportunity is given to all who
wish to contribute to relieve suffer-
ing in the greatest modern disaster.

Those who wish to give money
for this purpose may do so by send-
ing their contributions to Mrs. Or-
ville Sneed, local Red Cross chair-
man. Mrs. Sneed will send such
gifts directly to the national head-
quarters to be added to funds be-
ing gathered.

The American Red Cross is at-
tempting to raise \$5,000,000 to be
expended by that organization in
Japan. To that end everyone is be-
ing given an opportunity to give
for the relief of suffering.

MAXWELL FAIR IS IMPROVING

Exhibits of High Quality and
Competition is Very
Keen.

Those who attended the Max-
well township fair Thursday
pronounced it the best ever held there,
both in quality of exhibits and at-
tendance. The citizens of the town-
ship take a great interest in the
event and they are there with a
most excellent line of everything
produced in the district.

Among other features were the
canning exhibits of the ladies of
Summers' Chapel and Gale.

There was keen competition
among the Maxwell, Gale and
Summers' Chapel schools and all
three won honors on the exhibits
they displayed, showing that their
teachers are very wide-awake and
are doing good work.

Another feature of the day was
the dinner served by the ladies club
of Gale. The club has 21 members
and all were present with their
families. All told there were more
than 100 at the spread. They spec-
ialized on things they have been re-
cently working at through the club.

DUNCAN GIRL IS FOUND AFTER ATTACK

DUNCAN, Okla., Sept. 6.—Badly
slashed about the face and body,
and in a semi-conscious condition,
a girl giving her name as Miss
Houser, residing about eight miles
southeast of here was found criti-
cally wounded Thursday.

Her assailant, as yet unidenti-
fied, is being sought in a county-
wide man hunt.

Details of the attack are not
known.

Yokohama Destroyed By Quake

View of Yokohama and Railroad Bridge, destroyed in Japanese conflagrations.

Yokohama, the seaport of To-
kio, with a population of 425,000
was destroyed, according to reports

by the quake, which devastated the
island of Honshu, largest of the
Japanese group, and caused the

death of more than 100,000 per-
sons. Fires ravaged the wrecked
cities following the quake.

ADA HI STUDENTS ENROLLED TODAY

Everything in Readiness for
Opening of Term Mon-
day Morning.

Enrollment at the high school is
progressing nicely at this time. The
bulk of the students who will at-
tend school there during the com-
ing year have already enrolled, the
total number so far being about
three hundred.

Practically all of the remaining
work of enrolling will be done this
afternoon, leaving the opening day
Monday, free for other activities.
A full faculty has been secured to
accommodate the increased enroll-
ment and is prepared to take up
its work with the opening of the
coming term. Included among the
faculty are several who have not
taught in Ada before.

A meeting of all the teachers in
the city schools was called at nine
o'clock this morning at the high
school building, at which time they
were welcomed by Reverend F. G.
Davis on behalf of the churches of
the city and by L. A. Ellison,
representing the business in-
terests here.

L. T. Walters, president of
the local school board, made an ad-
dress to the teachers, telling them
what is to be expected of them
and what they may expect.

W. A. Hill, high school princi-
pal, in a later meeting with the
high school faculty, outlined more
fully the work that is to be accom-
plished this year and gave full in-
structions in the manner in which
the work is to be done.

The ward school teachers met in
their respective buildings at two
o'clock this afternoon at which
time their principals went into de-
tail concerning the coming school
year.

ARDMORE BOY REPORTED DEAD AT YOKOHAMA

(By the Associated Press)

WASHINGTON, Sept. 7.—While
the navy department has no in-
formation from its own sources re-
lative to the fate of the two en-
listed men in the naval hospital at
Yokohama reported dead, in state
department advices they were iden-
tified from the records as Paul
Raymond Cannon, third class phar-
macist mate, whose next of kin is
given as his father, John B. Can-
non, 1125 Hargrove street, Ard-
more, Oklahoma, and Antonio An-
gilio, Middle Village, Long Island

Pontotoc Baptists Hold Association Meet at Stonewall

Many citizens of Ada are attend-
ing at least some of the sessions of
the Pontotoc Missionary Baptist as-
sociation, which are being held at
Stonewall. Among those who were
there either Friday or today are:
Rev. C. C. Morris, D. W. Swaffar,
C. W. Henson, Rev. R. E. L. Ford
and Miss Anna Ford, Mrs. J. W.
Westbrook, Mr. and Mrs. J. C.
Hynds, T. J. Chambliss, Mr. and
Mrs. F. L. Evans, Mrs. J. L. Sand-
ers, Mrs. H. E. Deering, Mrs. R.
A. Strickland, Mrs. L. J. Crowder,
Mr. and Mrs. L. A. Ellison, U. C.
Dixon, C. T. Bates, J. H. Collins,
Mrs. W. S. Kerr and others whose
names were not learned.

IMPORTANT NEWS IS EXPECTED AT TULSA

(By the Associated Press)

TULSA, Sept. 7.—Tulsa is ex-
pecting.
The city expects to learn from
emissaries who called on Governor
Walton at Oklahoma City yesterday
whether or not martial law is to
be lifted here in the near future.

There was no change at military
headquarters. The soldier court
went into session again and wit-
nesses were waiting outside to be
questioned. Adjutant General Mark-
ham, commanding the troops here
returned from his conference at the
capital and Assistant Attorney Gen-
eral King remained, although he
had announced last night that he
intended going to the capital for a
few days.

Arkansas Oil Promoter Held in Federal Case

(By the Associated Press)

EL DORADO, Ark., Sept. 7.—
Pat Marr, credited as the discover-
er of the light gravity area in the
South Arkansas oil field, and rated
as one of the most successful oil
promoters, is under a \$25,000 bond
today to answer to a federal charge
of using the mails to defraud.
Marr was arrested yesterday by
government agents who based their
charges on advertisements in con-
nection with stock selling cam-
paigns which they declared made
promises which "no human could
fulfill."

Charges have been filed in coun-
ty court against Bob Bell, city mar-
shal of Roff, one alleging assault
and battery on Jeff Scott and the
other charging disturbing the peace
by using strong language to Mrs.
Pearl Jones. He made bond for
\$500 in each case.

ARRANGING FOR CONFEDERATES

Estimated That 300 Will be
Here; Convention Hall
to be Headquarters.

Capt. A. M. Crow states that ar-
rangements for the Confederate re-
union are nearing completion, only
a few more details to be worked
out between now and the time for
the gathering.

He states that Mrs. C. D. Price
will be in charge of the dining room
and that Bud Rich will be the
cook. It is planned to keep the vet-
erans and their wives in the homes
of the citizens where they will be
served breakfast. Dinner and sup-
per will be served at the conven-
tion hall. The business sessions will
also be held there.

Mr. Crow says that he expects
about 300 veterans. This is rather
above the average attendance, but
Ada has become very popular
among the veterans who attended
previous reunions here, so all who
can possibly come are expected.

Some will likely arrive the night
before the reunion opens in order
to be here at the opening session
but Mr. Crow says these will be
looked after. He is highly pleased
with the co-operation given by the
Chamber of Commerce and other
organizations as well as individual
and predicts a highly successful
and pleasant time during the three
days the veterans will be here.

An Oversight.

In the list of business men do-
nating to the first bale premium
handed the News for publication,
the Coca Cola Bottling Works was
omitted through an oversight. This
firm contributed \$2.00.

Big Reward for Al Spencer and 4 Gang Members

PAWHUSKA, Sept. 7.—Reward
totaling \$10,000 for the capture
"dead or alive" of Al Spencer, no-
torious Oklahoma bandit, and four
of his alleged lieutenants, have
been posted by the postoffice de-
partment, it was announced here
Thursday.

Those wanted besides Spencer are
Frank Nash, Riley Dixon, Grover
Burrill and George Fallon. A reward
of \$2,000 is placed on the head of
each.

All are sought in connection with
the looting of a Missouri, Kansas
& Texas passenger train near Okesa,
Okla., on the night of August 20.

Read all the ads all the time.

Harding's Will is Filed for Probate in Marion Court

MARION, Ohio, Sept. 7.—The
will of the late President Harding
filed for probate here today, leaves
to Mrs. Harding a life estate of
\$100,000, the Harding home in
Mount Vernon avenue here, and a
half interest in the building occu-
pied by the Marion Star. The total
of the late president's estate can-
not be determined until the ap-
praisers report.

Dr. George T. Harding, the aged
father of the late president, was
given a life estate of \$50,000 and
the residence here in which he
lives.

The will specifically states that
no part of the estate shall be used
for a monument to the late presi-
dent except for a "modest stone."

MESCH PLEADS FOR LAW ENFORCEMENT

Says Money and Maudlin
Sentiment Often Defeat
Justice.

With the fiery cross towering above
him and a great concourse of peo-
ple on each side and in front,
Rev. Fred Mesch, Methodist minis-
ter of Blackwell, Oklahoma, de-
livered an address on law and or-
der Thursday evening. Although the
speaker did not deny he is a mem-
ber of the Ku Klux Klan, he said
he was not defending it. He was
speaking in the interest of better
law enforcement. He indulged in
no personalities.

The speaker pointed out that, in
his opinion, the greatest obstacles
to law enforcement at this time is
maudlin sentiment, money, a let-
ting down of the moral sentiment
and foreign immigration. Juries
and the public in general, he be-
lieves, let sentimentality often con-
trol them in making up their
minds about the guilt or innocence
of an individual. Money often plays
a part in saving a criminal from
conviction or getting him out of
prison after he is convicted. Par-
ents are to blame for not keeping
their boys and girls at home at
night instead of letting them do
their courting away from home. A
big percentage of law violators
are foreign born or the children of
foreign born. This nation needs to
keep out the undesirables, though
it is difficult to do that. Undesir-
ables are bootlegged into this coun-
try now.

Rev. Mesch took Governor Wal-
ton to task for keeping the militia
in Tulsa to run down floggers when
he was turning out of the peniten-
tiary many more criminals than the
militia was finding. He insisted
that the Governor is inconsistent.

The speaker made a strong plea
for more Christianity. He empha-
sized the idea that what the world
needs worse than anything else
is a revival of old time religion
faith in God and love for mankind.
There is too much tendency to
leave God out and spend too much
time fishing or golfing instead of
going to church.

MEXICAN FLAGS ARE TORN DOWN

Row in El Paso Over Act Fol-
lowing Recognition Meeting
Mayor Indignant.

(By the Associated Press)

EL PASO, Sept. 7.—The tearing
down of Mexican flags from Liber-
ty Hall the day following a recog-
nition meeting here was laid indi-
rectly to the Ku Klux Klan at a
meeting of the city council today.

The council passed resolutions
"condemning the tearing down of
the Mexican flags" and Mayor Dud-
ley expressed the belief that the
Klan was responsible.

The city owns a large number
of flags of foreign countries and
these were placed in Liberty Hall
the night of the recognition meet-
ing for decorative purposes. The
hall had been previously engaged
by the Ku Klux for a Klan speak-
er but they released it for the re-
cognition meeting. Just before the
Klan meeting the following night
some one went through the hall
and tore down the flags.

"The Mexican people have just
cause to be offended and it is al-
so an insult to the city and the
United States itself. I feel that an
apology is due from the people
who use masked methods and an
explanation of this act," Mayor
Dudley said.

WALTON BLAMES KU KLUX KLAN FOR FLOGGINGS

Report Issued Claims That
Witnesses Give Damaging
Testimony.

BLAKE WRITES STORY

Says County Officers Were
Under Control of Klan
Organization.

OKLAHOMA CITY, Sept. 7.—
Charges that Governor Walton is
not interested in the persons who
have been whipped by masked
bands; that his fight is directed
only against the Ku Klux Klan,
were made here today by N. W.
Jewett, of Oklahoma City, grand
dragon of the Ku Klux Klan in
Oklahoma, who declared in a formal
statement that the governor
"and all his cohorts" never will be
able to break the power of the
Klan in Oklahoma.

The grand dragon's statement
was occasioned by the issuance last
night of the first part of the gov-
ernor's "story of Tulsa" which
blames the Ku Klux Klan exclusiv-
ly for a number of cases of masked
violence in Tulsa county during
the last year.

"Walton has taken hold of an
iron in his fight on the Klan that
has grown so hot that he would be
glad to drop it right now if he could,"
the statement said. "Aldrich Blake's
charges against the Klan are too
absurd to be noticed."

Grand dragon Jewett charged in
his statement that the organiza-
tion's rejection of Governor Wal-
ton as a member was the principal
cause for his fight against the
Klan. It was also alleged that the
governor is waging his fight against
the organization in furtherance of
his political ambition.

"The Klan has ever advocated
the enforcement of the law and
could not conscientiously do this
and carry on a lawless campaign
themselves. It seems that Walton
has found that some members of
a whipping party at Tulsa were
members of the Klan. They did not
say what their religious or other
fraternal affiliations were; but all
the world was told they were
Klansmen."

OKLAHOMA CITY, Sept. 7.—The
K. K. K. stood revealed today as
the organization charged by Gov-
ernor Walton with responsibility for
the lash reign in Tulsa county.

Evidence gathered by the mili-
tary court investigating mob flog-
gings in the vicinity of Tulsa lays
responsibility for the outrages di-
rectly at the home of the Klan, it
was declared by Aldrich Blake,
counselor to the governor. Blake
was commissioned by the governor
to review the testimony taken by
the military authorities and tell
the "story of Tulsa." In all the
testimony of more than 500 wit-
nesses examined no suspicion has
been cast upon a single person out-
side the "Invisible Empire," Blake
declared.

Summing up of the "brutal re-
frain of 1200 pages of testimony
already adduced," the executive
counselor asserted: "It is always
the Klan or some members of the
Klan."

Named as the organization re-
sponsible for the whippings that
went on unchecked in Tulsa coun-
ty for more than a year until mar-
tial law was invoked, the Klan was
also revealed as the force which
the governor charges as honey-
combing the civil offices of the
county, protecting the floggers and
making justice impossible.

Scores of victims of Tulsa mob
rule have fled in fear of their lives
and the entire story never can be
told, Blake said.

Tulsa county's "most famous
whipping pasture," a spot a mile
and a quarter southeast of Alsuma
was described by Blake as a place
of torture from which "strong men
staggered away ruined for life."

Second Installment Coming.

OKLAHOMA CITY, Sept. 7.—A
second installment of Gov. Walton's
"story of Tulsa" will be made pub-
lic within a few days, probably
Sunday, Aldrich Blake, executive
counselor, declared here today. Mr.
Blake said the extreme care neces-
sary in preparing the manuscript
prevented immediate publication of
the entire story.

JAPANESE DEBTORS ARE GIVEN 30 DAYS GRACE

(By the Associated Press)

OSAKA, Sept. 7.—The Japanese
government has proclaimed a 30
days moratorium for payment of
accounts falling due from Septem-
ber 1 to September 30. The mora-
torium is inapplicable outside the
zone of disaster.

Firm, Plump, Fresh!

MANY are the eyes that are turned to gaze with keen admiration on the well developed, healthy girl no matter where she may be—on the rapidly moving thoroughfare or gliding gracefully over the dance floor.

All eyes turn because we all appreciate the girl with the figure so firm and plump—the girl with radiantly red cheeks, cheeks that carry a touch of roses from nature's own garden—the girl with the sparkling eyes, keen and sharp—the girl with buoyancy and the swing of youth.

Not necessarily an out-of-doors girl. Just a girl with ever increasing blood cells. Just a girl filled with the vim and vigor of youth.

S. S. S. since 1876, has stood for increased blood cells. S. S. S. means restored strength—rekindled vitality—added energy. Take S. S. S. and watch the bloom of youth return to your cheeks. Watch that flabby, ill nourished flesh fade away before flesh that is firm and plump. Red blood cells will do it and S. S. S. will build them. It contains only pure vegetable ingredients. S. S. S. is sold at all good drug stores. The large size bottle is more economical.

Prof. Oscar H. Darter, superintendent of the schools of Tupelo, was in Ada Thursday. Prof. Darter is a loyal East Centralite and was superintendent of the county schools of Johnston previous to this scholastic year. He will be in Ada often during the progress of the term.

Christian Church Notes

All members of the church are urged to be in their places at all of the services or the church Sunday. Fall work in the church demands that we start at once in order to get best results. We will meet you Sunday.

All men are back from their vacations now and are expected to be back in the Men's Bible class Sunday morning at 9:30. Dr. Linscheid will give you something to think about. Bring a friend.

The rain last Sunday cut our attendance in the Bible school last Sunday. Let us all make an extra effort to be out this Sunday and help make up our average for the month.

We will talk at the morning service on the theme, "The Reward of Faith," and at the evening service the theme will be "Things That Keep Us From God." Come and hear these subjects discussed.

The Woman's Missionary Society will meet Monday at 3 o'clock with Mrs. L. T. Walters, 23 E. 13th.

Christian Endeavor meets at 6:45 Sunday evening. Come on folks let us get our C. E. going big again.

HARDING'S FRIEND IS IN FAVOR OF COOLIDGE

(By the Associated Press)

WASHINGTON, Sept. 7.—Senator Willis of Ohio, who presented the name of Warren G. Harding before the 1920 Republican National Convention, came out today in support of President Coolidge for 1924, after a call today at the White House.

TRAINING SCHOOL WILL REORGANIZE

College Gives Best of Instruction on Methods; Enrollment Monday.

When the state teachers training school was brought here there was established in connection with it a training school in which the normal students might secure practical and actual experience along with the theoretical methods of teaching.

That department, which has grown with the school and which in efficiency is second to none in the state, will be reorganized the coming term for the accommodation of more pupils and increased efficiency of teacher training.

In this re-organization, effective next Monday morning when the training school pupils enroll for work, the grades will be divided into three divisions, the primary, the intermediate, and the junior high school.

The primary department will be under the direction of Miss Mattie Layday, who in addition to years of experience in primary supervision has been taking advanced work in this line of teaching at Peabody College for teachers this summer. This department will include the first, second and third grades.

The intermediate department will include the fourth, fifth and sixth grades, and will be under Misses Gertrude Montgomery, Corinne Moore and Mrs. Ina Mackin.

Miss Gertrude Montgomery has been supervisor for these grades here for some years and is a graduate of Grayson College, with advanced training in the University of Chicago. Miss Moore is a graduate of East Central and has teaching experience combined with graduate work at the University of Wisconsin. Mrs. Mackin will assist in addition to her work as dean of women.

The organization of the junior high school is in line with one of the most modern educational methods which bridges the gap between the grade school and the high school in such a way that the pupil when entering to higher department knows better those courses which are preferable to him.

The Junior high school work includes the seventh, eighth and ninth grades. Miss Stella Watson for several years critic supervisor of the seventh and eighth grades in the East Central training school and a teacher of wide experience will be in charge along with Professor John W. Zimmerman. Miss Watson, a graduate of Texas University, has spent the summer at Leland Stanford University, while Mr. Zimmerman has taken special courses at Peabody college in preparation for their work with the newly organized department.

Those who attend the junior high school through the ninth year can enter a separate high school at the end of that year a full-fledged sophomore with equal recognition to that of a pupil coming from another high school. Mr. R. R. Robinson assures the parents.

Domestic science and manual training courses will be given from the fifth to the ninth grades. Mr. Gilman Mackin will be in charge of the manual training work and Miss Thelma Roberts of the domestic science courses. They will act as classroom teachers.

Mr. Robinson, who is head of the education department to which the training school belongs, states that he has two things in mind in securing the reorganization of that department. First he is making an effort to prepare teachers to serve the people among whom they will work to the best of their ability, and second to give the boys and girls who attend the training school the best possible educational advantages known to modern teachers.

To this end have been added books and equipment for each grade and for each type of child so that they may be available to all the pupils.

The education building has recently been overhauled, the walls kalsomined and floors painted. The building is now in excellent condition for occupation beginning Monday morning.

It is the intention of the administration to make the reorganized training school a successful school system where the children may secure the best education and training and teachers may secure.

The training school has become so popular with parents that throughout practically all of the past year a waiting list was available to replace those who stopped attending for any reason. It is believed by the administration that such will be the case again this year as many applications for enrollment are coming in.

Those expecting to enter the training school should call Professor Robinson at 919 before Monday as enrollment begins Monday morning at nine o'clock.

THREE MEN KILLED IN POWDER EXPLOSION

SOUTH AMBOY, N. J., Sept. 7.—The toll of dead as a result of the explosion last night of three car loads of smokeless powder on the Pennsylvania railroad today was increased to three men when two men died in a hospital of their injuries. Damage caused by the explosion was estimated at nearly \$1,000,000.

O. E. S. PICNIC AT GLENWOOD PARK.

The officers and members of the Order of the Eastern Star Chapter No. 78 with their families held their annual picnic Friday evening Aug. 31 in the Glenwood Park. These annual meetings are usually held in honor of Robert Morris, founder of the Order. The usual program rendered on this occasion was dispensed with, as it had been given several times in the past and instead the time was spent in partaking of a bountiful dinner which had been prepared by the ladies of the chapter; after which we all enjoyed a social hour together.

Any one who has ever had the privilege of partaking of a spread prepared by the ladies of our order know what they missed if they were not there. There were about 125 present and there were several tables loaded with good things to eat consisting of fried chicken, sandwiches, salads, pickles, pies and cakes of all kinds and descriptions just like our mothers used to make. In addition to this, there was ice cream, iced tea, lemonade, coca-cola soda pop and plenty of Byrd's Mill water, cooled to the proper degree for drinking with the best ice made in Oklahoma, manufactured by the Ada Ice Company.

Those who failed to attend this picnic missed a real treat of good things to eat and a good time. The officers and members extended a vote of thanks and appreciation to the committees on arrangements who made it possible for us to have such a good time.—(Contributed.)

Ada Retailers Hold Meeting at Christian Church

The Merchants Association held its regular meeting Thursday evening at the Christian church where the ladies had arranged a bountiful spread for the members and their wives who attended. The attendance was not as large as it is sometimes and the business session was of an informal nature.

Meeting mail order competition was discussed by three or four members and advertising was recommended as one means of meeting the mail order houses. Another suggestion was that merchants carry a cheap line such as the mail order houses carry, and if a man wanted something in that line they could supply it.

A committee was appointed to consider the matter of a stock show in the spring just before the state show at Oklahoma City.

W. A. Hill, principal of the high school, stated that he has eight high school boys who want to work their way through school this year and asked that the business men keep them in mind when needing work of any kind done.

"CHILDREN OF DUST" IS EPIC OF SCREEN

How a gruff old man learns to love children and the world when past sixty, is one of the absorbingly human angles of "Children of Dust," a First National picture directed by Frank Borzage which opens at the McSwain theatre next Monday.

Archer, the old man, beats a boy severely for stealing a flower for his mother, and is imprisoned upon his release the boy "adopts" Archer. Then follows the enthralling story of the lad's later life; of his love for a wealthy girl, of his rival and Archer's part in his romance. Borzage has interwoven all the pathos and human interest of "Humoresque," his previous great success into this intense drama in a manner intriguing to the most blasé theater goer.

Pauline Garon, Johnny Walker, Lloyd Hughes and Bert Woodruff head the superb cast of all stars especially selected for this screen epic.

FOOTBALL TEAM DOWN TO WORK

Thirty Players Report for Practice; Coach Cox is Highly Pleased.

Regular high school football practice has been in progress during the past week and Coach C. R. Cox is becoming more optimistic over the prospects for the coming season.

He reports that nineteen players answered his first call, but in a few days the number had grown to thirty. All of those now coming out for practice are showing great spirit and willingness to work, according to Mr. Cox.

The places left vacant by the loss of a large number of the most experienced men of last year's squad because of graduation will be filled with no exceptions, indications show. In addition to those who tried for the team last year several new players are making an excellent showing in practice.

The schedule for the season has been arranged and include games with a number of schools who will provide plenty of opposition for the local team.

AIM OF SHEPARD-TOWNER ACT EXPLAINED

The Shepard-Towner Act is a national recognition of the need for instruction in pre-natal care and early infancy and the education of mothers concerning the benefits to be derived by their children as the results of healthful living on their part.

The combined appropriation for carrying on this work in Oklahoma as made by state and federal governments is \$45,050 for the fiscal year. This sum has been budgeted for carrying on work in this state according to a plan of work approved by the Children's Bureau U. S. Department of Labor which became effective July first.

Miss Georgia Harrison is the nurse in charge of this district and she will conduct the "Well Baby conference" at the county fair next week.—Committee.

BIBLE THOUGHT FOR TODAY

A BENEDICTION:—Unto him that is able to keep you from falling, and to present you faultless.—Jude 24.

AMERICAN STABILITY

While the mark crashes and the kronen slides and the ruble wobbles, the good old American dollar holds its own. That is because American enterprise, American stamina and American ideals are still on the job. The German presses may turn out just as artistic paper money and the Austrian dies may be equal to their American contemporaries, but when it comes to industry, natural resources, high mindedness, business integrity, and unwashed manhood and womanhood, there is none today to challenge Uncle Sam's supremacy.

Before the war four German marks—approximately—were equal to one American dollar. Today the ratio is 4,000,000 to the dollar. A day laborer at the end of the week, if he expects full pay, must endure several hours of additional work with a wheelbarrow in order to get his wages home. And once home, if he is not caught in a rainstorm on the way, his earnings make acceptable fodder for the cookstove.

Notwithstanding the widespread complaint concerning the diminished purchasing power of the dollar, compared with other years, we're a fortunate people. High prices and high wages mean nothing unless the lawful specie is sound and stable. And as long as the American people stand by their institutions, their traditions, their Constitution and their country, the gold eagle will ring true. No one questions American ingenuity, American sagacity, or American talent for business. The one quality our people may be somewhat shy of is patience. If the English "Mr. Britling" could "see it through" during the war, surely our Yankee Smith and Dixie Jones can—with the comfortable consciousness of the stability of things American—match him during the trying times of peace.—Farm and Ranch.

What does man amount to anyway? We have studied and planned and imagined we were getting ahead. We have been able to turn some of the forces of nature to our advantage. But insignificant are we yet. When earthquakes, storms, drouths, floods come, we are as helpless as the babe in the cradle. Suppose we could harness the energy of the tides, or same the energy used to create earthquakes and that which is flashed from cloud to cloud in the sky, nature would do the work, and we should but have to do the directing. We should quit kidding ourselves about having reached such a high state of knowledge. As a matter of fact, we have rolled back only a little mist that hides from us the mysteries of nature. There are yet dense clouds to remove.

The communication of President Linscheid to the effect that many ambitious boys and girls are anxious to find places where they may earn part or all of their board by working as they go should have the attention of all who have anything in this line. They are not asking for charity and do not want something for nothing; work is what they ask for. Thousands of boys and girls are securing an education every year through this method and come out the better for it. We know what it means to dig out an education by hard work and our best wishes go out to the ones who are traveling a path that is none too easy but which hurts no one who means business. Give them a chance.

When it comes to a redistribution of a nation's wealth, the Germans solved the matter most effectively by inflating the volume of their paper money until it was worth less than the paper it was printed on. If in other years some capitalist loaned a man a million marks the debtor could now settle with one American quarter dollar or a few dozen eggs. Naturally everyone who was in debt when the German mark was worth its face value on a gold basis has paid out while the other fellows are left holding the bag. This system could not be beaten for leveling all classes in the matter of property.

The township fairs are getting good attendance, reports indicate. This is encouraging, for new ideas mean better farming, and better farming means better times for all. Pontotoc County has untold possibilities, and some of these possibilities have not been greatly known. As some man does the unexpected and let his neighbors know about it, progress is made.

Citizens of Ada should take a special interest in the county fair and all of its activities and they probably will. The fair is something of which all should be proud. They should give special attention to placing exhibits of all kinds for more there are, the better the fair.

Oil men will watch with interest the progress of the big rotary outfit of the American Oil and Refining Company just north of Ada. If this method of drilling proves successful, it is likely it will have a decided effect upon the development in the county.

Tulsa County seems to tire of martial law. Who could blame her?

Budgeting the Budget

(Oklahoma City News)
The government's budget system needs a friend at this very minute.

Senator Smoot frankly admits that congress has no love at all for this system. It blocks the way of members seeking to tap the public purse in behalf of the pap-suckers back home. It puts considerable check not only on reckless appropriation committees, but it rears a solid wall against departments and bureaus whose chief purpose, apparently, has been to spend the public funds lavishly. It is an annoying obstacle to such office holders as that bureau chief who recently lost his job because, having been shocked by the discovery of a small surplus in his office funds urged his subordinates to quickly get rid of it.

At this moment the system is in a critical position. It finds favor with the chief executive, but beyond that no one in official Washington has an approving nod for it. Attacks on it from various directions are already being made and there are threats to demand of the president that he overrule the budget director. As soon as congress meets, the situation will become more critical and a determined effort to budget the budget will be made. Congress abhors even the prospect or promise of a surplus.

The people are the only one capable of saving the system. Senator Smoot practically admits it. If they can only grasp the proposition that government money is their money handed in at the taxpaying counter and that it may be safeguarded or wasted only as they decree, the system will live. If they remain indifferent to their own best interests the system is bound to tumble very shortly and taxes will soar. Congress will not support it if the people back home do not. That's flat.

TEXAS OFFICERS SEEK MISSING KLAN LECTURER

SAN ANTONIO, Tex., Sept. 7.—Rangers, city and county authorities and friends are combing the state in an effort to locate Reverend J. T. Renfro, Baptist minister of Sinton, Texas, and prominent as a national lecturer on the Ku Klux Klan. Renfro disappeared while on a short visit to this city. Three hand bags, identified by relatives as his, were found on the bank of the San Antonio river.

Relatives and police are working on the theory that Renfro was followed to this city and slain because of his Ku Klux Klan activities. His family at Sinton told local officers over long distance phone that his life had been threatened several times.

There's a reality, a sincerity, a rarity in

OREGON SCHOOL LAW IN THE COURTS

WASHINGTON, Sept. 7.—Capital News Service.—National Capital educators art intensely interested in the legal test to be made of the Oregon school law. Suit for a test of the constitutionality of the bill, which became law at the general election last November, has been filed in United States District Court by a Catholic Society.

Adopted after a bitter fight in the last Oregon election this law makes it compulsory for all children below high school age to attend the public schools. It has been generally regarded as an effort to drive private schools out of business, and Catholics have looked upon it as aimed especially at their institutions.

Proponents of the law, which included a heavy majority of the citizens of Oregon, maintain that as the institutions of a state are the product of, and live or die by the character of its citizens, the state has a right to say how and by whom its future citizens are to be trained. Opponents of the law see in it an invasion of the rights of the individual to train his child as he pleases.

It is noted that the law does not, as has been claimed, drive out the private school, since private instruction is permitted children who are taught the same subjects for the same period of time, as are taught in the public schools.

The test of the constitutionality of the law has been looked for ever since its enactment, and the results of the court action will be most carefully considered by educators and legislators in other states who are only awaiting a definite pronouncement on the Oregon law before imitating similar legislation in their own jurisdictions.

Red River Lease Applications to be Given a Hearing

WASHINGTON, Sept. 7.—Each of the applicants for oil and gas leases in the Red River district on the border of Oklahoma and Texas was asked in a circular sent out by the Interior department today to show cause why his application should be considered a preferred one.

The action is the first step towards assigning the leases and settling the claims of 160 applicants. The land has been in dispute since 1918.

Rev. E. O. Whitwell stated when he left Ada Thursday on a short visit to Norman and Oklahoma City that he would return in time for the regular services Sunday.

FRANK PIERCE'S AMERICAN MAGAZINE STORY MAKES IDEAL CAREY PICTURE

Harry Carey in his latest and greatest photoplay to-date "The Miracle Baby," is coming to the American theatre Saturday.

This production marks one of this great Western star's most ambitious efforts in screen portrayal. The story is from the pen of Frank Pierce and deals with the great outdoors. Carey is unjustly accused of a crime, but before he can indicate himself he is suddenly charged with the custody of an infant.

He finds the child in a deserted cabin and he and his partner proceed to care for it. With the baby they find a book on how "to feed infants" and with this as their guide they make a feeble effort as cumbersome nursery maids.

Things right themselves after a series of adventures and the baby is not the only fortunate one because Carey succeeds in getting the girl he loves and is cleared of the crime of which he is accused.

The direction of this production was handled by Val Paul and carries an all-star cast consisting of Margaret Landis as Judy Stanton, Charles J. LeMoine as "Hopful" Mason, Edward Hearn as Hal Norton, Hedda Nova as Violet, Edmund Cobb as Jim Starke, Alfred Allen as Dr. Amos Stanton and Bert Sprotte as Sam Brodford.

SAVED SICK SPELLS

Black-Draught Found Valuable by a Texas Farmer, Who Has Known Its Usefulness Over 30 Years.

Naples, Texas.—"I have used Thedford's Black-Draught for years—I can safely say for more than 30 years," declares Mr. H. H. Cromer, a substantial, well-known farmer, residing out from here on Route 3.

"I am 43 years old, and when a small boy I had indigestion and was puny and my folks gave me a liver regulator. Then Black-Draught was advertised and we heard of it."

"I began to take Black-Draught, and have used it, when needed, ever since. I use Black-Draught now in my home, and certainly recommend it for any liver trouble."

"I have given it a thorough trial, and after thirty years can say Black-Draught is my stand-by. It has saved me many sick spells."

Mr. Cromer writes that he is "never out of Black-Draught," and says several of his neighbors prefer it to any other liver medicine. "I always recommend Black-Draught to my friends," he adds.

This valuable, old, powdered liver medicine is prepared from medicinal roots and herbs, and has none of the bad effects so often observed from the use of calomel, or other powerful mineral drugs. Be sure to get the genuine, Thedford's. NC-145

Alabama Mayor Says Tanlac Restored His Health.

JUDGE G. W. THOMASON

Judge G. W. Thomason, Mayor of Tarrant City, Alabama, widely known and highly esteemed pioneer citizen, recently gave his unqualified endorsement to the Tanlac treatment.

"Chronic indigestion brought me to the verge of a general breakdown three years ago," said Judge Thomason, "and nothing seemed to afford much relief. I was eating scarcely enough to keep going on, and food stayed in my stomach like a rock, causing pain and extreme nervousness. Sleep was often impossible, and I gradually weakened so I could hardly attend to my office duties.

"The first bottle of Tanlac improved my appetite and digestion wonderfully, my nervousness disappeared and I rested better at night. Each successive bottle gave added impetus to my returning strength, and I felt ten years younger when I finished the sixth bottle a short time later. Tanlac gave me new zest in life that still remains with me."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

Card of Thanks.

We are under a deep debt of obligation to our many friends and the Rainbow Circles and Glad class of the Baptist church for their many acts of kindness, aid and sympathy during the long illness and death of J. F. Jackson and for the floral offerings sent when he passed away, and desire to thank one and all.

Mrs. J. F. Jackson, Estelle Jackson, J. D. Jackson and family, C. D. Price and family.

Little Mother Happy Again

"For the past nine years I have been very much distressed with bloating and stomach trouble due to constipation since I was a child. No medicine gave me more than temporary relief. I got so bad I was afraid I would have to leave my three little children. But since taking a course of Mayr's Wonderful Remedy two years ago I have been entirely well; no constipation or other trouble." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Mark Arie, Champaign, Ill., missed up ninety-six targets to win the Grand American handicap at the South Shore Country Club, Chicago. Shooting at scratch, twenty-three yards from the target, Arie also took high honors for the week, smacking 956 of 1,000 birds, giving him the governor's cup, it was unofficially announced.

PYORRHEA NO LONGER CONSIDERED INCURABLE

"Pyro-form" Proves Boon to Many Sufferers.

(Contains no Creosote)
Although many preparations for the relief of Pyorrhea have been placed on the market in the past, few have proved satisfactory as most of them offered temporary relief only. Recently, however, the Pyro-form Company, San Bernardino, California, manufacturers of a new remedy called "Pyro-form" have come out with the statement that it will banish Pyorrhea from the mouth permanently. They have backed up the statement with a positive money-back guarantee. Price \$3 per carton.

"Pyro-form" has actually proved successful in many cases of Pyorrhea where all hope of saving the teeth had been abandoned. This remedy penetrates to the very roots of the teeth and kills all germs as well as removing the pus formations. "Pyro-form" can be obtained at the

What a Quarter Can Do
In the early spring of 1918 it was announced in the public school of a small town on the Texas Coast that prizes would be given by the local chapter of the Women's Christian Temperance Union to the writers of the two best essays on "The Evils of the Drink Habit." To these was added a third prize by the principal of the school.

Judges were appointed and the contest held. A small boy, eleven years old, in the fifth grade, was awarded the third prize of \$1. This boy was called various names by his school mates but we will call him Jim.

Bought Seed Peanuts
Now Jim, though young, was thrifty as well as patriotic. So when he received his dollar he bought a thrifty stamp, gave 50 cents to the Red Cross, and with the remaining 25 cents he bought some Spanish peanuts for seed.

These his father planted and cultivated for him. Jim kept the grass hatched out and the weeds pulled up. His efforts were rewarded by a

bumper crop. His father helped him gather the peanuts and then bought them for \$10.

The \$10 was saved for the simple reason that dad kept it for him. **Acquired Jersey Heifer**
The next spring, that of 1919, he earned a few more dollars by pulling weeds and hoeing for the neighbors. About this time an uncle who was moving wished to sell a Jersey heifer. Jim bought her for \$13, using his peanut money, and some of that he had earned.

In July, 1920, she became the mother of a Holstein-Jersey heifer calf. His father told him that a stock cow would be worth more to him than a milk cow, and offered to trade him a red cow with a steer calf, much larger than the one he had.

He accepted the offer. Later he traded the steer for a Red Poll heifer. He now has two cows and a large heifer calf, besides having sold a cow for \$25, and losing a calf by accident.

It has been Jim's intention to make his cows pay his way through college, which won't be so bad, considering what he started with.—C. A. Davis in Farm and Ranch.

Use the Straw—Don't Burn It
(By H. M. Bainer in Oklahoma Farmer)

The Southwest burns, or permits to go to waste, in the neighborhood of 60 million dollars worth of straw every year, basing its value on the fertilizing elements only, and saying nothing of the enormous amount of vegetable matter lost.

Since nearly a third of the virgin fertility of the soil in this region already has been lost, and since it has been declining at a rate somewhat in excess of half of 1 per cent a year, no one interested in the future welfare of this territory can view such unnecessary losses without concern.

The figures, of course, are not strictly accurate. Accurate figures cannot be obtained; but if anyone doubts that the fertility of the soil of the Southwest is being lost, at a rapid rate, he has only to go into the wheat belt about the time the wheat is jointing, or in the boot, and compare the average field with one that has been broken from the sod just recently, or with the wheat along a recently broken fence row. The most casual observer will not fail to note the better growth, the greener, healthier color and later the better yield and quality of the wheat from the newer land.

Restoring the straw will not entirely solve the problem, but it will remove one of the important leaks that have been responsible for the losses of fertility and humus. But it is neither an easy or simple matter to restore the straw and at the same time get wheat enough better to pay for the extra labor. The straw may even result in lower yields, if not judiciously applied. Where combined harvester-threshers are used, this problem is solved automatically in perhaps the best possible way.

No doubt the best practice where a considerable quantity of straw is to be disposed of, is to use as much as possible for feed and bedding and see to it that all the manure is applied to the land. Probably the second best method is to apply it as a thin, top dressing immediately after harvest and before plowing. In dry climates this may not be advisable because of leaving the ground too loose, but it is a satisfactory method where the summer rainfall is adequate and there is sufficient help to get it on the land early.

Another and probably the most generally practicable way is to apply the straw as a top dressing in the winter. It may be applied in this way to land intended for spring crops, or as a top dressing on growing wheat. In either case the application should be a light one—1 to 1 1/2 tons an acre. Straw applied in this way greatly retards soil blowing and decreases winter killing, if the winter be a severe one. If applied too heavily, however, it will retard the growth of the wheat in the spring and result in decreased yields.

In Kansas, it has been estimated that the wheat straw stacks that are scattered and allowed to stand from year to year on wheat farms cover fully 2 acres on an average on each farm. This acreage covered with straw stacks represents lost use of thousands of acres of good wheat land, but it does not equal the loss in fertility represented if the stacks are burned. As far as possible, wheat straw should be stacked in corrals or feedlots where the feeding and tramping of the livestock will assist in the spreading. Straw that cannot be spread over the fields at once or cannot be handled in connection with feeding should be stacked on waste land and in places where it can remain until ready to haul out as manure.

Home Tanning.
Directions for tanning hides on the farm are given in a new bulletin just published by the United States Department of Agriculture and issued as Farmers' Bulletin 1234, "Home Tanning of Leather and Small Fur Skins."

This bulletin was prepared in response to the thousands of requests received from farmers for information that will enable them to make use of the hides produced on their farms and for which there is often no market. Sometimes hides can scarcely be given away, yet farmers must pay from \$1 to \$1.50 a pound for leather. Under such conditions farmers naturally feel that they must either work up their raw materials or do without the finished leather.

While it is possible to do a fairly satisfactory job of tanning on the farm it requires some skill and a considerable amount of experi-

MAIN STREET

THE PINCH HITTER
BATTING FOR

V. L. H.

It seems that Ada has overlooked a bet. Fair representatives of various cities all over the land are speeding toward Atlantic City each having been acclaimed the most beautiful girl in the old home town and each dreaming of being crowned the beauty supreme at this national beauty contest. The old board walk and environs will witness a sight for sore eyes, because they grow 'em in America. And with a handy a swimmin' hole as the Atlantic, there ought to be some brand new ideas advanced along the lines of bathing suit design, or rather, the effect—or lack of it.

Investigation today disclosed the fact that the Conductor, V. L. H., purchased a one-way ticket when he left for his vacation. He told the ticket agent, confidentially, of course; and the ticket agent told the Pinch-Hitter, confidentially, of course; and now the information is passed along to you, confidentially, of course, that he might have to buy two tickets for the return trip.

"No madam, you don't have to come to a full stop at the white lines with your baby-buggy. All other Fords do, however."

According to some of the Main street authorities, opportunity is getting more bald every day.

Officially, the swimmin' season has closed and there's many a bathing suit that is hung on a back nail in the clothes closet. That is another sign of the changing times. When the Pinch-Hitter was a unit of the boy problem, there was no "season." The outstanding heroes of the year were the first boys "in" in the spring. And three to four miles walk to reach the favorite hole several times each week till the ducks were half flown by was not considered effort at all. Nowadays, if the car is not available, there's many a lad that won't walk across town to the pool.

The Day in History B. C. 33.
Caesar, who at this time was conquering Britain sent the following telegram to his wife: "Send my winter underwear by parcels post collect, it gets cold here a hell-of-a-lot earlier than it does at Rome."
C. J. CAESAR.

RECKLESS RIDING BY COWPUNCHERS IS PICTURE THRILL

No matter how blasé the spectator, reckless horseback riding carries for him an irresistible fascination, and a so-called "western" motion picture without a certain amount of skillful horsemanship would be disappointing to say the least. Particularly in Oklahoma is there well-nigh universal admiration for the rider who can gracefully sit on his mount while dashing pell-mell in flight or pursuit, for Oklahoma only a few years ago was a commonwealth of "rough riders."

Cowboys, in Oklahoma parlance "cowpunchers," are famous for feats of horsemanship and for dare-devil try in the saddle and in the border screen drama. "It Happened Out West," coming Friday to the American Theatre, range riders of Oklahoma's plains and hills give marvelous demonstrations of reckless skill.

However, not alone are "cowpunchers" responsible for thrills with which this picture abounds. Franklyn Farnum, world-famous serial and western star; "Shorty" Hamilton, celebrated nationally as a rider and player of frontier characters, and Al Hart, one of the best horsemen in the cinema world and a motion picture luminary who has headed his own producing companies, contribute their wonderful daring and ability in this line of acting. The story of "It Happened Out West" is literally packed with climax piled upon climax, the author evidently calculating upon gripping the audience's attention at the outset and holding it steadfast to the end. It has a pretty thread of love woven in it also, beautiful Virginia Lee being a big factor in the romance.

Only in the event that the margin of price between the raw hide and the finished product is such as to warrant the farmer in tanning for himself it is not advisable to attempt home tanning. The inexperienced can not hope to make leather equal in appearance, or possibly in quality, to that obtainable on the market, but farmers and ranchmen should be able to make serviceable leather for most farm purposes by carefully following the directions given in the bulletin.

It is never advisable for an inexperienced person to try to tan valuable fur skins or large hides to be made into coats, robes, or rugs. The results would be disappointing. Both in appearance and quality. Small fur skins of low market value, however, can be tanned for home or country use, according to directions given in the bulletin, a copy of which may be obtained from the United States Department of Agriculture, Washington D. C., as long as the supply lasts.

Episcopal Services
Regular services will be resumed at St. Luke's Episcopal church 109 East 14th, next Sunday, September 9. The church school will assemble at 9:45 and there will be a celebration of the Holy Communion with sermon by the rector at 11 a. m. Every member is urged to be present and visitors will find a hearty welcome awaiting them.

ADA AND FORT WORTH TO PLAY SERIES HERE

A three-day series of baseball games will occupy the attention of Ada fans beginning Sunday and continuing Monday and Tuesday. The visiting team for these games will be the independent team of Fort Worth, Texas, composed of all star players, some of whom are college players.

This is the first out of the state team the Ada team has played this year and the games will give local fans an excellent opportunity to compare the Ada Amateurs with a like team from the big state to the south. There is no basis of comparison before the teams tangle for honors Sunday.

Manager Green plans to use Williams and Blankenship in the box with possibly another twirler if the visitors prove difficult. The remainder of the lineup for Ada will be practically the same as that which has shown its class among independent Oklahoma teams for the past summer.

The first game is called for 3:30 Sunday afternoon at the new ball park. It has not been decided yet when the other games will begin but the time for their opening will be announced at the game Sunday.

WILSON WOULD MEET WALTON IN DISCUSSION

(By the Associated Press)

OKLAHOMA CITY, Sept. 7.—(Special)—Governor Walton, you stated at the Farmers union meeting in Shawnee that if anybody would prove you had double-crossed the farmers and laborers, that you would resign. I defy you to meet me at ten places in this state and deny that you have wilfully and maliciously double crossed both the farmers and laborers.

That is the challenge of George Wilson, ousted as president of Agricultural and Mechanical college, in a letter to Governor Walton Thursday.

"We will leave it to the audiences to judge whether or not the farmers and city workers have been betrayed by you," Wilson said, in suggesting that each select five places for platform meetings. "I defy you to state definitely and prove which of my appointees were ever guilty of tearing down the American flag and trampling it in the dust, and I am ready to defend my appointees and the program, once approved by you, which I planned to inaugurate at Agricultural and Mechanical college," Wilson said.

CINCINNATI CLUB SUES FOR DAMAGES

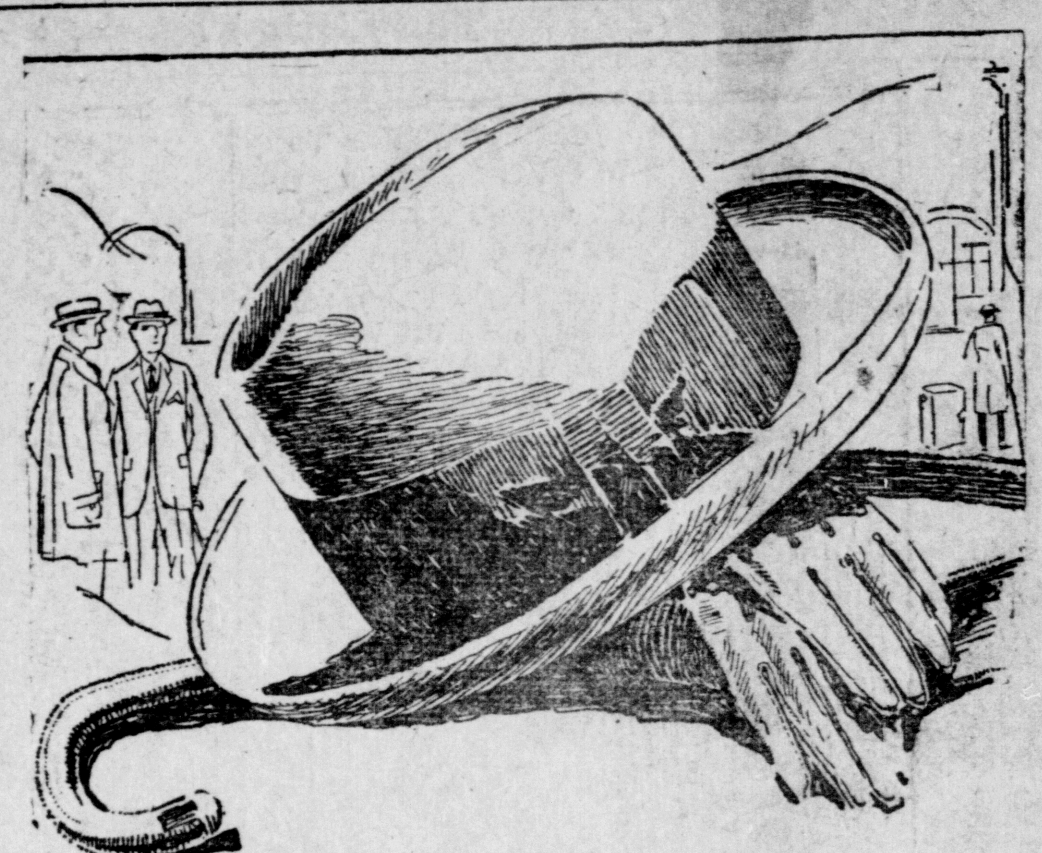

(By the Associated Press)

CINCINNATI, Sept. 7.—President August Hermann of the Cincinnati Nationals, announced today that a suit for \$50,000 damages would be filed by the club in behalf of players Duncan and Bohne against "Collyer's Eye," a Chicago sport publication, in the United States district court at Chicago today. He said the suit is the result of charges in the publication that Duncan and Bohne had been approached by gamblers during the New York series games in Cincinnati.

WEEKS ASKED TO LOOK INTO TULSA SITUATION

TULSA, Okla., Sept. 6.—A Federal investigation into the use of units of the Oklahoma National Guard in enforcing Governor Walton's proclamation of martial law in Tulsa County, was asked Thursday by Representative E. B. Howard, of the First Oklahoma district in a telegram to Secretary of War Weeks.

Congressman Howard said he was acting "as a representative of his constituents," some of whom were represented in a delegation of leading citizens who called upon him on Thursday and urged that his influence be brought to bear to prevent what they termed Governor Walton's "unjust and unauthorized" use of the militia here.
